

**A. Description of overall philosophy (200 word limit):**

**EXCEPTIONAL CHILDREN SERVICES**

"To improve the success of individuals with exceptionalities served in the least restrictive environment."

**Mission:**

In accordance to the mission of the Friends of King School District, the Exceptional Children Services Department creates and maintain an orderly, trusting environment where teaching and learning are innovative and exciting; where students are taught to read, write, compete, and think critically according to their fullest potential.

**Goal:**

The goal of the Office of Exceptional Children Services is to ensure that students with exceptionalities have access to a full continuum of services in the least restrictive environment; as we seek to improve their overall performances and narrowing the achievement gap.

The Friends of King School District's Exceptional Children Services provide opportunities for a Free Appropriate Public Education (FAPE) to student ages 3-21. We offer a variety of programs which provide quality education and allow students to function at their highest potential as they compete in our society with their non-disabling peers.

Placement and services flow from the needs of the students identified through a referral process that includes a multidisciplinary meeting throughout the tier instruction and/ or evaluation (MDE).

<b>D. Description of how pupil appraisal, special education, and related services are provided by the school</b>	
<i>Appraisal/Evaluation</i>	
Main point of contact if a parent would like to request an evaluation	Teacher(s) and Mrs. Monja Kelson
Response to Intervention Overview	<p>DIBELS, DSC, DIRECT INSTRUCTION, iREADY, CURRICULUM BASED MEASUREMENT, POSITIVE BEHAVIOR INTERVENTION PLAN, BEHAVIORAL INTERVENTION PLAN, GRAY ORAL READING TEST, TEST OF EARLY WRITTEN LANGUAGE, TEST OF LANGUAGE DEVELOPMENT</p> <p>The above are a few of the District’s Universal Screenings. We utilize a three-tiered approach to providing services and interventions to struggling learners and/or students with challenging behaviors. The three approach is comprise of instructional and intervention with progressing monitoring at all levels, problem solving methods with standard protocol, and data collection/assessment components. The Response to Intervention is used when making decisions in both general education and special education because of its ability to create an integrated system of instruction and intervention guided by student outcome data.</p>
School Building Level Committee (SBLC)	<p>Members of the SBLC team: Principal/designee, referring teacher(s), invited parent, speech/language pathologist, school counselor, Student Evaluation &amp; Support Services representative, lower/upper level grades chairperson(s), nurse, social worker, and interventionist(s).</p> <p>The team above including the parent(s) or guardian(s), is a general education, data driven, decision-making committee; commonly called the RTI Committee. The overall goal of the committee is to review and analyze all screening data of the RTI results, to determine the most beneficial option for the referred student(s). All summaries by the committee on the status of the student’s response to the scientifically research-based interventions which would include repeated assessments of achievement at reasonable intervals, reflecting formal assessment of student progress during instruction. The reports or summaries are generated and provided to the parents at least once each grading period until a decision is reached by the committee. If the parent(s)/guardian(s) disagree with the decision, the parent(s)/guardian(s) are provided a copy of their rights, which includes the right to request an evaluation. If it is the opinion of the committee that the student be referred for an initial evaluation, a pupil appraisal team member shall be present to review supporting documentation.</p>
Appraisal Team	<p>Members of appraisal team: Certified Educational Assessment Teachers or Diagnosticians; Qualified School Social Worker; School Nurse; Adapted Physical Education Teachers; Speech/Hearing/Language Specialists, Speech/Language Pathologist; Occupational Therapist; Physical Therapist; Certified School Psychologist and invited parents.</p>

	<p>The Friends of King School District view the parents as an integral part of the Appraisal Team. It is important that all parties be at the table providing input and resources to better the learning outcomes for our students. We seek and encourage parent participation in decision-making that affects their child. Thus, parents are invited to be a part of the appraisal team when their child is being discussed.</p> <p>These services include, but are not limited to the examples provided below:</p> <ul style="list-style-type: none"><li>• Provide assistance to teachers and other school personnel in the development and implementation of behavioral and/or instructional interventions through the district's Response to Intervention (RTI) process, positive behavior support process, or other intervention processes;</li><li>• Provide support services to non-disabled students with academic, behavioral and/or communication difficulties;</li><li>• Consult with parents, students, teachers, and other personnel on topics such as instructional or behavioral modifications, exceptional students, and child development;</li><li>• Provide provision of staff development to school personnel on topics such as assessment, interventions, or child development;</li><li>• Complete the evaluation of students to determine whether the students need further testing;</li><li>• Interpret the evaluation findings to school personnel and parents;</li><li>• Provide provision of related services to students with exceptionalities; and</li><li>• Refer students and parents to other appropriate agencies for services when warranted.</li></ul> <p>The pupil appraisal personnel is not limited to providing services solely to students referred for an individual evaluation. Many students experiencing academic, behavior and/or communication difficulties may be helped through recommendations made by pupil appraisal personnel for use in the general education classroom, enabling the student to benefit from instruction in the general education curriculum and eliminating the need for referral for an individual evaluation.</p> <p>Another function of pupil appraisal personnel is to include being child/student advocates and assisting students to remain in and profit from the general education curriculum whenever possible. Description of extended school year services:	<p>Identification:</p> <p>The Extended School Year (ESY) services are the provision of special education and related services to students with disabilities beyond the normal school year of our LEA. FOKS utilizes specific eligibility criteria to determine the need for extended school year services to ensure the provision of FAPE. Services are provided in accordance with an IEP and at no cost to the parents of the student.</p> <p>The three (3) criteria used to determine a student's need for ESY services: Regression-Recoupment, Critical Point of Instruction, and Special Circumstances.</p> <ol style="list-style-type: none"> <li>1.
